## Southern Bell In Agreement With Co. Workers

"The Southern Bell Telephone Company and the Communications Workers of America, in collective bargaining begun October 18, signed an agreement Friday on wage changes affecting 60,000 non-supervisory employees in nine states," said E. F. Reddy, District Manager for Southern Bell in West Palm Beach.

The agreement, subject to union membership ratification, includes a general wage increase ranging from \$2.00 to \$4.50 a week, depending on job and town classification of the employee. In addition, certain jobs were upgraded and a number of towns reclassified to higher wage zones.

Southern Bell's Personnel Vice President W. A. Thompson of Atlanta, said, "Our studies made recently of wages in the area we serve showed the increases to be justified. They are in the interest of the best service to the public since it is essential to have the services of well-qualified employees."

Approximately 13,000 non-supervisory employees of Southern Bell in Florida and the Palm Beaches will be affected.

States served by Southern Bell are Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee.

According to Charlie Leonard, local manager, the Glades area was reclassified to the same wage schedule as the rest of Palm Beach County.

## Vegetable Group Cites Three For Their Service

The Florida Fruit and Vegetable Association announced three recipients recently for its 1965 outstanding service resolutions. FFVA is one of the state's largest farmer organizations.

The recipients are Senator Spessard Holland, State Representative W. Allen Markham of Okeechobee and Stanley W. Zabka, a New York City composer.

Holland was honored for his efforts in behalf of Florida Agriculture over the foreign farm labor problem. Markham was cited for helping to obtain greater state appropriations for agriculture during the 1965 legislative session.

Zabka composed the background music for an FFVA film on the farm labor shortage problem.

## Sweet Corn Brings \$2.50 As Season Gets Underway

That delectable vegetable—sweet corn—is being harvested in rather large quantities in the Lake Region this week and the sales are satisfactory to the growers with the product bringing \$2.50 per crate for yellow corn. White corn is being quoted higher than the yellow, but the offerings in this particular line are lighter than in the yellow line.

Corn was the top product in the Glades last year exclusive of sugar cane. According to Associate County Agent John H. Causey, the commodity added \$18,568,647 to the economy of Palm Beach County.

Of the amount, \$16,401,728 came from the Glades area alone. The remainder of the commodity came from the east coast or "sandland" section.

On the local market this week, several hundred bushels of Acorn squash sold for \$2.50 per bushel. Cucumbers were selling on Wednesday for \$2.75 per bushel and pepper, though scarce, sold for \$5.00 per bushel.

## Tractors Allowed To Run On County Roads When Light

Tractors pulling empty sugar cane wagons are going to run on county roads this cane season, according to an announcement by the county commissioner, E. W. Weaver. Signs have been posted by the county preventing such practice, but pressure was brought by sugar cane interests and the new ruling was made to suit their convenience.

The commissioner in commenting upon the action said: "It is to be specifically noted that this pertains to the movement of empty equipment not designed for highway travel and does not permit the movement of loaded cane wagons, tractor drawn, in any case."

Charles Maxson, Glades road superintendent for the county, will be responsible for maintaining a check on the roads and shoulders to ascertain if any damage is being done, Weaver explained.

## Florida Southern Receives 7 Million

Florida Southern College, a Methodist institution at Lakeland will receive at least \$7 million from the estate of the late Mrs. T. G. Muckner of Jacksonville, a trustee and longtime patroness of the college. Her bequest is believed to be the largest single gift for higher education in the history of Florida.

Mrs. Buckner, a leader in Jacksonville civic and church affairs, died October 26 in Italy while on an European tour. She was 62. The attorney for her estate said the \$7 million bequest to Florida Southern was "a conservative estimate."

In her will Mrs. Buckner said the bequest was made "by reason of conviction that support of private colleges is essential to the educational growth and stability of this nation." She stipulated that Florida Southern use approximately \$1 for capital improvements one-third of the balance for faculty salaries and one-third for the endowment fund.

Two local students, Miss Sharon Johnson and Ricky Parker, both graduates of Pahokee High School, are students at Florida Southern.

Mr. and Mrs. Dick Bordeaux and children of Norfolk, Virginia, were the weekend guests of his parents, Mr. and Mrs. J. H. Bordeaux in Canal Point.

## Sugar Act Gets 5 Year Extension By Johnson's Hand

President Johnson signed Monday a five-year extension of the Sugar Act, which increases domestic producer quotas by 580,000 tons. That provision will allow U. S. sugar producers to unload a surplus they have piled up in warehouses.

The bill also specifies country-by-country quotas for foreign producers, who are allotted about 40 per cent of the U. S. sugar market. The rest of the 10 million-pound-a-year U. S. consumption is filled by American beet and cane growers.

The foreign quotas produced the most controversy when the bill was being considered by Congress.

Representative Harold D. Cooley, D., N. C., chairman of the House Agricultural Committee scrapped the administration's formula for allotting the foreign quotas and the committee wrote its own.

## A MESSAGE OF APPRECIATION TO THE PEOPLE OF MY TOWN

To the dear ones who wrote, telegraphed and telephoned messages of hope and encouragement during those few days Jake was alive at Lakeland General Hospital,

To the ones who drove all those miles to stand in his room or to take turns sitting in chairs out in the hallway waiting to take their turn to lift Jake to ease his coughing and to give me help in his nursing care,

To the neighbors, old friends and church families who welcomed a new widow and her three daughters back to their home after the expiration of husband and father,

To the senders of many beautiful floral pieces to the church services and floral arrangements to brighten our home,

To the good cooks who brought food that we all could gather here together for a bountiful meal and offer grace to God for His kindness,

To say thank you one and all.

### Melodramas Are Still With Us

They did it in the old-time melodramas. They still do it today on TV. The villain is cornered and dealt his mortal wound. Does he expire neatly and quietly? Not a bit—he rants around, chews the scenery, knocks off a few enemies en route, and delivers his own funeral oration before finally lying down to die.

The same sort of lurid performance is enacted in real life from time to time. Not by individuals but by outworn customs, fashions, trends. They rarely expire all at once; it happens gradually, with periods of waxing and waning until the moment of final surrender. It's been happening with other disease scourges such as VD; and it's happening right now with tuberculosis.

About a dozen years ago this ancient enemy received what looked like a quick death blow. Potent,

reliable drugs against it were developed for the first time—notably streptomycin, isoniazid, P.A.S. (para-aminosalicylic acid). Sickness and death tables began swooping downward. Then the seemingly conquered enemy turned and fought back. Small local epidemics broke out; the tide seemed to be turning; in many cities the sad statistics were climbing again.

Just the same, anti-TB workers remain convinced that the disease can and will continue to be reduced and eventually banished. Public health officials, Christmas Seal associations and private medical specialists are combining to zero in on the problem. Witness the project recently launched in Montgomery County, Pennsylvania, where the National Tuberculosis Association, its local affiliate, and the Montgomery Medical Society Foundation are jointly conducting a three-year study to determine exactly what is needed for the eradication of tuberculosis.

The wounded villain, like a stage "ham" of old, still flails around. It will take years—de-

cade—to finish him off. But the day will come, hastened by efforts like the Montgomery County project.

### SMATHERS IS ILL

Senator George A. Smathers said Tuesday that unless his health improves he will retire from the Senate when his third term ends in 1968.

He made the announcement in a statement following his release Monday from Georgetown University Hospital in Washington, where he has been undergoing tests and treatment for an undisclosed ailment.

Smathers, who will be 52 next month, said without physical improvement within 18 months his "only one alternative" will be to leave the Senate seat he has held since 1950.

### Witnesses Prepare For Assembly

In most schools today there is very little said about God because of the recent Supreme Court ruling on prayer and Bible reading, but November 26-28, the Vero Beach Junior High School walls will resound with nothing but prayers, Bible reading and discussions as 1,000 Jehovah's Witnesses hold their semi-annual circuit assembly, according to Miles P. Crum, presiding minister of the local congregation.

Saturday's program will include baptizing new ministers, climaxed by Joseph Saia, district supervisor of the Southeastern United States, speaking on the subject, "Showing Discernment in the Ministry."

The public is invited to all sessions and especially to hear the advertised lecture which will be presented at 3:00 p.m., Sunday,

Why should you buy  
U.S. Savings Bonds when there are  
so many other good investments?

To help your country is one answer — and a good one.

But Bonds have other advantages that make them worth your consideration.

For instance, they offer you just about the easiest way to save money: either with the Payroll Savings Plan where you just ask your employer to put part of your wages aside toward a Bond or through regular purchase of Bonds at your bank.

Another unique advantage of U.S. Savings Bonds is the way they stick with you. You can get your money any time.

But if you're like most people, you'll hang on to your Savings Bonds for the big things you want in your future.

And, of course, Bonds are a safe investment — as long as there's a United States of America.

Which brings us back to your country again. Bonds help defend freedom at a time when the enemies of freedom are stronger than ever.

Buy Savings Bonds. The banks or savings institutions that sell them don't charge you a penny for the service.

Keep freedom in your future with

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones  
you own now are better than ever*

**Q: How does the new  $3\frac{3}{4}\%$  interest rate benefit me?**

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds, the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed  $4\%$  each year to maturity.

**Q: When did the new rate become effective?**

**A:** June 1, 1959.

**Q: Does the new rate change the Bonds I bought before June 1, 1959?**

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{4}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q: Will the Bonds I own automatically earn their new rate?**

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q: When my E Bonds mature, will they keep on earning interest?**

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q: With the new interest rate, should I cash in my old Bonds and buy new ones?**

**A:** No. The automatic  $\frac{1}{4}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q: How are series H Bonds different from series E Bonds?**

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q: In what denominations can I buy series E and series H Bonds?**

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000, and \$10,000. They are priced at face value.

**Q: How safe are U.S. Savings Bonds?**

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q: What if my Bonds should be lost, stolen or destroyed?**

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q: Where can I buy Bonds?**

**A:** Buy E Bonds at your bank—it takes only a few minutes. Buy H Bonds automatically through the Payroll Savings Plan at your work. This Plan means you can have your money and your name automatically deducted every pay day. The Bonds you buy by installment are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?**

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

## How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

## Opportunity Center For W. Palm Beach

Secretary of Labor W. Willard Wirtz announced Tuesday that Fort Lauderdale, Jacksonville, Orlando, Pensacola, Tampa and West Palm Beach will have new Youth Opportunity Centers (YOC) established in the very near future. This is in addition to the YOC now in operation in Miami.

"The increase in these needed services should be considered a reflection of the Nation's growing concern for its youth, particularly those between 16 and 21, who are jobless and undereducated," Secretary Wirtz said.

Youth Opportunity Centers serve all youth and will provide special counseling and guidance services for the disadvantaged. Expansion of the Centers will create a number of new positions within the Centers, State Employment Service youth programs, rehabilitant services and will expand local public employment service office staffs.

## Liquor Leading Factor In State's Fatal Mishaps

Col. H. N. Kirkman, Director of the Department of Public Safety said recently, "Alcohol was a leading factor in fatal accidents throughout Florida, according to the Department's accident records. Drinking may be a factor in as many as half of the fatal motor vehicle accidents happening on Florida's highways today, based on some special studies.

An eight-year study in Dade County revealed that 47 percent of all traffic victims tested for alcohol had been drinking; among drivers killed in single-vehicle accidents, 68 percent had been drinking, according to Dade County officials.

"Florida's Troopers have made 2,718 DWI arrests during the first eight months of '65," said the Patrol Commander, "and they will continue their all out efforts to curb this fatal accident causing factor since studies have shown that 92 percent of the drinking drivers were clearly at fault, where as only 61 percent of the non-drinking drivers were at fault.

The Commander is quick to point out also that the social drinking drive in most cases is just as

deadly behind the wheel as the drunk driver, but harder to catch until he makes that fatal accident causing mistake.

Col. Kirkman concluded by warning drivers that the greatest significant finding in the study was that 44 percent of the "innocent not-at-fault" dead drivers were killed in accidents with drinking drivers.

"The drinking driver has proven to be a murderous menace on the highway and therefore, if you're going to drink, DON'T DRIVE," declared Kirkman.

The bank feels that the Christmas Club Savings Program was a success and that it will be even more successful as more and more people realize that the Bank of Pahokee is offering this easy weekly savings system. The Christmas Club money is mailed to the savers each year before the middle of November, in plenty of time for their Christmas shopping.

## Board Will Hear Arguments For Passenger Trains

The Florida Public Service Commission has announced a series of public hearings beginning November 23 to determine the public need for pre-strike passenger train service by the Florida East Coast Railroad.

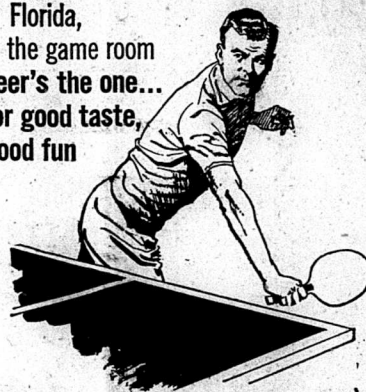

The hearings will be held in eleven cities along the Jacksonville to Miami route of the FEC.

Commission Chairman Edwin Mason said the hearings have been called to receive written and oral testimony. The FEC, Atlantic Coast Line Railroad and Seaboard Airline Railway were made respondents in the proceedings, Mason said, for the purpose of providing material the commission feels is relevant.

Mason explained the commission never authorized FEC to halt or reduce passenger train service, but ordered the railroad to restore full pre-strike service after a public hearing, earlier this year. FEC appealed to the Supreme Court and the court said they need only comply with the minimum service of one round-trip passenger train per day as required by state law and this is being done at the present.

Recent guest of Mrs. M. F. George was her brother, H. B. Stalls, of Miami.
